PAST

Founded in 1849 by Capt. Charles Weber, Stockton began as a tent settlement and supply center for the southern mines during the California Gold Rush. Between Stockton's incorporation in 1850, and its emergence as a popular destination for entertainment and recreation in 1900, citizens altered the natural waterways running through the city to alleviate devastating frequent floods. They also coordinated interstate water and rail with local transportation systems to facilitate the city's development.

California Building is now 100 years old.

Downtown Stockton is filled with signature historic architecture that will take you back to the times when Stockton was known as "the brick city." Many of the oldest civic and commercial buildings are still in use and feature the original ornate facades and classic interiors.

You can enjoy Downtown Stockton's impressive directory of historic sites and public art by taking a self-guided tour with a History & Art Guide (included in this publication on page 26 or at downtownstockton.org)

PRESENT

Today, the historic Downtown Stockton is in the heart of California's 11th largest city. It is home to regional rail, water, and street transportation. The Downtown Stockton Marina and the Port of Stockton connect our downtown with waterways leading all the way to the Bay Area. The seat of San Joaquin County government, Downtown Stockton employs over 20,000 people in the County's Superior Court House, public assistance services, police, and local government offices, in addition to private sector employees.

Modern solutions and designs co-exist harmoniously with the historic buildings. From the scenic Waterfront Hotel to the lovely murals that lighten up our area, downtown features a wide variety of styles and artistic visions.

In the last decade, Downtown acquired many needed housing projects; CalMain Lofts, Tretheway Lofts, Medici Artist Lofts, CalWeber40, and Grand View Village have all contributed to a larger 24-hour Downtown population. It has also seen the completion of the stylish new SJC Courthouse located at 180 E. Weber; restoration of historic Chung Wah Lane; creation of the colorful Diversity Plaza; and beautification of nearly 80 properties thanks to ARPA funding

FUTURE

Waterfront development, public investment, and increased population density will pump new life into the heart of Stockton over the next 5 years.

By 2025, construction on the new, waterfront-facing Stockton City Hall at 501 and 509 W. Weber will be complete, along with the SJC DA's office improvements to 6 S. El Dorado and the demolition of the 1960s-style 222 E. Weber courthouse.

As Downtown's revitalization continues, expect an influx of both affordable and market rate housing. One of the most anticipated new development projects is Teacher's Village, which will be located on the South Pointe of the channel. Investors are also purchasing underutilized and dilapidated existing buildings like the California Hotel and the Hotel Terry, with the goal of residential conversions and façade improvements.

ART & HISTORY

1. B&M BUILDING

Historic B&M Building at 125 Bridge Place is the second oldest building in Downtown Stockton.

2. ST. JOHN'S EPISCOPAL CHURCH

c. 1889, and Guild Hall, c. 1892, 306 N. El Dorado Street. The Episcopal congregation built their first church on this site in 1857. The current St. John's building is a rare example of Nordic architecture and replaced the first church after it was demolished in 1889. The chancel window from the original church is located above the west entrance. The building is known for its superior acoustics and intimate surroundings. St. John's parish is the third oldest Episcopal Church on the Pacific Coast.

3. CITY HALL

c. 1926, 325 N. El Dorado Street. Built in the Grecian-Iconic style of stone and marble, the lobby of this elegant building features a richly coffered ceiling and decorative bronze electroliers. A mural by Gregg Custodio represents different ethnic groups and trades that settled in Stockton.

4. CIVIC MEMORIAL AUDITORIUM

c. 1926, 525 N. Center Street. The Roman-Doric style building is dedicated in memory of Americans who lost their lives in WW I. The exterior is finished in stucco to resemble sandstone and trimmed with terra cotta. Each side presents a polychrome panel of the seal of the City of Stockton, State of California, federal government and emblems of the American Legion, Spanish American War Veterans, Veterans of Foreign Wars and the Grand Army of the Republic. The 12 emblems of the armed forces are on the building's frieze.

ART & HISTORY

ARCHITECTURE

5. SPERRY FLOUR MILL

c. 1888, 146 W. Weber Ave. The Victorian Commercial style building was at one time the 2nd largest flour milling operation in California. An addition was built in 1917. Today, it's home to Visit Stockton.

7. BANK OF STOCKTON

(Stockton Savings & Loan Society), c. 1908, 301 E. Main Street. Stockton's first "skyscraper." Designed by San Francisco architects Meyers and Ward in the Classic Revival style. The building featured Stockton's first revolving door and an interior of marble quarried in Tuolumne County. The top two floors used to be occupied by The Yosemite Club, the oldest private club in California, which was founded in 1889 and closed in 2010.

6. SJ COUNTY COURTHOUSE

San Joaquin County has been home to four official courthouses –the first being built in 1854, the second in 1891, a third in 1964, and the current courthouse which was completed in 2017. Of the four, the most renowned was the second courthouse. In its day, it was considered the most beautiful courthouse in all of California. It was constructed in the Neoclassical style with a large grand entrance complete with local bricks and granite from nearby Placer County.

BRASS INLAYS

Downtown Sidewalk Brass Inlays (Dan Snyder, 2004) Snyder placed six sets of brass inlays around the downtown area, catching the attention of Guaranty Bank. That prompted Guaranty to commission Stockton's first public/private public art partnership in placing a set of brass inlays in front of the Guaranty Bank branch on Hunter Street.

8. BOB HOPE THEATRE

(Fox California Theatre), 242 East Main Street. Constructed within 14 months in the Spanish Colonial Revival style by Fox Theatres, it opened on October 14, 1930. After closing for renovations in 2002, the Fox was reopened in September 2004 as the Bob Hope Theatre. One of the only remaining “movie palaces” in California. The sidewalk mosaic represents the rebirth of the theatre (Myklebust & Sears, 2005). The exterior lobby has the original tile and chandelier. The interior lobby features vibrant colors, gold leaf and restored chandeliers. The Italian marble floor mosaic, made up of 80,000 pieces, represents the fountain and pool which once stood in the rotunda (Evergreen/Siebrand, 2005) and is surrounded by new carpet, duplicated from historical photos. Artwork throughout includes gargoyles, coats of arms and a mural of mythic horses. The Mighty Robert Morton Organ was originally installed in the Seattle Fox Theatre.

9. CALIFORNIA BUILDING

(Farmer's and Merchant's Bank), c. 1917, 11 S. San Joaquin Street. The Italian Renaissance Revival building was designed by prominent San Francisco architect, George W. Kelham, who also designed the St. Francis Hotel and San Francisco Public Library. The central lobby features Tennessee marble floors with walls and pillars covered with Travertine marble. Its coffered ceilings are 25 feet high and are ornamented with painted plaster.

10. ST. MARYS CATHOLIC CHURCH

c. 1861, 203 E. Washington Street. The building has been modified since the cornerstone was laid in 1861. A transept was added in 1870 and the steeple bell tower was raised in 1893, but it remains true to its red brick Gothic Revival style. (IMAGE ON PG. 16)

ART & HISTORY

ARCHITECTURE

11. HENERY APARTMENTS

(Glenn Allen, c. 1913) 121 S. Sutter Street. The brick and terracotta building, in a distinctive Mansard roof style, with three dormers facing the street. Arched windows, cornices with medallions and decorative brackets identify the Henery as a fine example of French Second Empire Style.

12. MASONIC LODGE

(Carl Werner, Allen McDonald, 1922) 340 E. Market St., Spanish Revival Style. The elaborate, Gothic-influenced, plaster work wraps around the recessed entrance and extends upwards toward the huge arched windows. Unlike many historical Stockton buildings, the architecture appears to be unaltered.

13. CORT TOWER

(Commercial & Savings Bank), c. 1915, 343 E. Main Street. Built by the Commercial & Savings Bank, this is a fine example of the Beaux Arts - Renaissance Revival style in vogue early in the century. The building was heavily damaged by a fire in 1923, and following repairs, was doubled in size. The building was placed on the National Register of Historic Places in 1980.

14. S.H. KRESS BUILDING

c. 1930) 409 E. Main Street. Decorated with terracotta elements from the renowned Gladding McBean firm, the structure boasts one of the city's finest Art Deco facades. The interior lobby features a large mural designed by Russel Joseph Buckingham in 2005.

For our audio tour of historic Downtown Stockton, visit www.downtownstockton.org/walking-tour

15. ELKS BUILDING

c. 1908, 36 N. Sutter Street. The 5-story building originally housed the Benevolent Protective Order of Elks until 1976. The building featured a huge stained glass dome skylight intended for the San Francisco Elks Hall. However it was destroyed by the Great 1906 Earthquake and Fire. The building lobby contains the original mosaic floor with the Elks motif.

16. MEDICO-DENTAL BUILDING

c. 1927, 242 N. Sutter Street. The downtown's tallest building, the 12-story Commercial Gothic building was originally devoted exclusively to medical and dental professionals. The building's cornerstone reads, "Dedicated to the Practice of Medical Service and to the Service of Humanity."

17. EMERGENCY HOSPITAL

(not in service), c. 1905, 220 N. San Joaquin Street. It was built in the Mission Revival style and replaced the old receiving hospital located in the cellar of the county jail building, originally next door. Between 1905 and 1941, almost a half million people received care in the hospital.

Main Street: In the 1850s, the waterfront businesses, plagued by a series of floods and fires, started migrating towards Main Street. Early buildings included grocery and provision stores, saddle and harness shops, as well as hardware and machinery merchants. Horse drawn carts and buggies traveled the unpaved road while pedestrians used the wooden sidewalks. By the 1900s, Stockton had grown into an industrial city. Streetcars running down Main Street, and the presence of banks, hotels, and theatres, attracted a steady flow of visitors. By the 1930's, Main Street boasted several skyscrapers and became the center of leading shops and prominent businesses. The pioneer stores were replaced by larger retail stores, including the Owl Drug Store, J.C. Penny's, or Woolworth's. During the 60's, Main St. was made into a one-way street in an effort to improve the flow of traffic downtown.

18. BELDING BUILDING

110 N. San Joaquin St. Built in 1915 in the Beaux Arts-Renaissance Revival style, this building was named after Charles Belding, Mayor of Stockton 1878-1879. A notable prior tenant was Belding Soda Works, whose glass bottles are still in demand by collectors. Today, the building is a prime location for office and co-work spaces as well as ground floor restaurants. Currently, the Downtown Stockton Alliance occupies the top floor.

19. TRETWAY BUILDING

c. 1892, 227 E. Weber Ave. Listed on the National Register of Historic Places, the building was originally the Argonaut Hotel with a hardware store on the ground level. Built in the Queen Anne style with Romanesque and Moorish influences, the facade is embellished with cast zinc floral patterns and sandstone. The building originally had a much taller false front parapet which fell as a result of the San Francisco earthquake of 1906.

20. MANSION HOUSE

c. 1873, the Mansion House was well-known in early Stockton, both architecturally and within the business community. Before major alterations, the building was a strong example of Italianate style commercial building. It had a corner bay window, an ornamented bell cap with cresting, a roof balustrade, and ornamental hoods over the windows. In 1947, the building was extensively altered and expanded to its present configuration, which impaired the historic integrity of the building.

21. TURN VEREIN

c. 1855, Turn Verein Hall –a German Social Club –was the first ethnic cultural society founded in San Joaquin County. These social organizations were a common feature in German-American communities. 22. HEUNG SHAN

c. 1882, Heung Shan replaced the original one-story wooden temple built in 1852 and destroyed by fire. By 1923, all of the temple artifacts were moved to the Washington Street Chinatown. The temple there was located on the second floor at 134 ½ E. Washington Street. Used as a rooming house from 1925 to 1950, the building was frequently referred to as the Hansen Rooms. It's likely that the building was refaced, the third story added, and the second story balcony removed some time after 1950.

23. HOTEL STOCKTON

c. 1910, 145 E. Weber Avenue. One of the finest examples of Spanish Mission Revival architecture in California. The first all steel reinforced concrete construction in the San Joaquin Valley. There are 20 units spread from Martin Luther King Plaza to Main St. and from Weber Point to San Joaquin St. 17 unique designs represented such themes as Work, Taste, Grow, Invent, Sister Cities and others.

Weber Avenue Tree Guards and Grates (Scott Runion, 2002) serve to protect new trees and provide vertical and horizontal art elements. The tree grate has a water lily and fish theme while the tree guard has six cattails emerging out of the rippling water. The green stalks and leaves have been powder-coated in green for a hard and durable surface and the cattail heads have been treated to create a rich brown color as in nature.
